

For the past 80 years, Vista Center for the Blind and Visually Impaired has provided full-service assistance to those with visual impairments and blindness. We operate centers in Palo Alto and Santa Cruz, with another coming soon to San Jose. Due to the support of generous donors, 62% of our clients receive direct services they otherwise could not afford. In 2017, Vista Center helped over 3,100 individuals. Here are a few positive outcomes of our programs:

one-on-one technology training sessions

of clients were able to read again with the help of new visual aids

of support groups
